September 15, 1982

Honorable Harry Hughes
Governor of Maryland
State House
Annapolis, Maryland 21404

Dear Governor Hughes:

Pursuant to Article 88B, Sections 9 and 10, of the Annotated Code of Maryland, the Maryland State Police respectfully submits the 1981 Uniform Crime Report for your information and review.

The information presented here represents the seventh annual report produced by the Maryland Uniform Crime Reporting Program. The statistics presented were compiled from monthly reports submitted to Criminal Records-Central Repository by law enforcement agencies throughout Maryland. Every effort has been made to verify the accuracy and completeness of the published information.

This information is presented with the hope that it will be of valuable assistance to law enforcement personnel and members of the Executive and Legislative branches of government. It should be helpful in planning programs and legislation to combat criminal activity in Maryland.

This report is dedicated to the public officials and law enforcement officers who have cooperated in the establishment and operation of the Maryland Uniform Crime Reporting Program. Their diligence and interest have made this report possible.

Sincerely,

W. T. Travers Jr.

Superintendent

Law Enforcement Code of Ethics

As a Law Enforcement Officer, *my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.*

I will *keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.*

I will *never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.*

I recognize *the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.*

ACKNOWLEDGEMENT

The Department of Public Safety and Correctional Services acknowledges the support made available from the Law Enforcement Assistance Administration, obtained through the Governor's Commission on Law Enforcement and the Administration of Justice, which provided the funds to establish and operate the Maryland Uniform Crime Reporting Program and make this seventh Annual Report possible.

INTRODUCTION

The Maryland Uniform Crime Reporting Program is one of the steps that have been taken in the establishment of an effective Statewide Criminal Justice Information System. This particular phase of the CJIS is oriented toward law enforcement and has brought about a statewide uniform method of collecting crime statistical data, producing a consolidated annual report concerning crime in Maryland, and reporting statewide crime statistics from a single agency to the Federal Bureau of Investigation.

National Uniform Crime Reporting Program

The counterpart of the statewide UCR Program is the National UCR Program which is under the direction of the Federal Bureau of Investigation. This national program is the result of a need for nationwide and uniform compilation of law enforcement statistics. Uniform Crime Reports were first collected in 1930 after being developed by a committee of the International Association of Chiefs of Police.

Today the IACP continues to serve in an advisory capacity to the FBI in its operation of the program.

Crime statistics voluntarily submitted by individual law enforcement agencies from all fifty states are presented annually in the FBI's Uniform Crime Reports Publication entitled "Crime in the United States".

In the last several years the FBI has been actively assisting individual states in the development of statewide programs of law enforcement statistics compatible with the National UCR Program. In taking advantage of the invaluable assistance provided, Maryland has developed its own statewide program for collection of law enforcement statistics.

Maryland Uniform Crime Reporting Program

The Maryland Uniform Crime Reporting Program involves the uniform compilation, classification, and analysis of crime statistics reported by all law enforcement agencies of the state pursuant to guides and regulations prescribed by law.

The responsibility and authority for collection and dissemination of UCR data was given to the Maryland Department of Public Safety and Correctional Services (State Police) under Article 88B, Sections 9 and 10, of the Annotated Code of Maryland. The UCR Program became operational January 1, 1975.

Purpose and Objectives

In keeping with the recommendation of the President's Commission on Law Enforcement and the Administration of Justice, the Maryland UCR Program was planned for eventual growth into a complete and integrated offender based Criminal Justice Information System. Under this program, each offender arrested in Maryland will be tracked through the entire criminal justice system from time of arrest through the courts to the correctional system where his exit (parole, expiration of sentence, etc.) will be recorded. In this manner, a complete "criminal history" on individual offenders will be available for use by the police, courts, and correctional agencies in Maryland. In addition, statistical data derived from the CJIS Program will provide assistance in determining the overall efficiency of the criminal justice system in Maryland and will make effective management studies possible.

The fundamental objectives of the Maryland UCR Program are:

1. Inform the governor, legislature, other governmental officials, and the public as to the nature of the crime problem in Maryland - its magnitude and its trends.

2. Provide law enforcement administrators with criminal statistics for administrative and operational use.

3. Determine who commits crimes by age, sex, race and other attributes in order to find the proper focus for crime prevention and enforcement.

4. Provide base data and statistics to measure the workload and effectiveness of Maryland's Criminal Justice System.

5. Provide base data and statistics to measure the effects of prevention and deterrence programs.

6. Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.

7. Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior.

8. Provide the FBI with complete UCR data to be included in the national crime reports.

DEVELOPMENT

Effective September, 1972, the first federal grant was awarded to the Department of Public Safety and Correctional Services (State Police) by the Law Enforcement Assistance Administration to provide money to initiate a Statewide Uniform Crime Reporting Program in Maryland. A committee for the implementation of this Program was then established by State Police.

The committee made studies of the federal program, as well as several state UCR Programs, which were operational at that time. Forms, tally books, and the Maryland UCR Manual were developed, printed and distributed to all contributing agencies. Questionnaires concerning each law enforcement agency's record keeping systems were distributed to determine their capability to fully participate in the State Program.

In September, 1974, an additional grant was awarded to the Department of Public Safety and Correctional Services (State Police) by the Law Enforcement Assistance Administration for the purpose of hiring Field Records Representatives to serve as liaison officers between the State Program and the contributing law enforcement agencies. Also, additional clerical support for the State Program was provided in the grant.

During the developmental phase, several workshops were held in various parts of the State to present the UCR Program in detail to participating agencies. Since that time, supplemental workshops have been held as needed.

During 1975, the first year of operation, the UCR Staff concentrated its efforts in assisting requesting law enforcement agencies in devising or improving their record keeping systems. The UCR Staff continues to keep the agencies trained in UCR and to provide assistance where needed. Agencies contributing to the UCR Program have increased from 102 agencies in 1975 to 136 in 1981. The UCR Section collects crime information from these 136 agencies and publishes quarterly releases reflecting crime trends. In addition, this is the seventh annual report produced by the UCR Staff containing an in-depth analysis of all information collected in the UCR Program.

During 1981, statistics were collected concerning Battered Spouses and a fourth Maryland Battered Spouse Report was produced.

REPORTING PROCEDURES

Under the Maryland UCR Program, law enforcement agencies are required to submit specified Uniform Crime Reports. The necessary information for each of the required reports is gathered from each agency's record of complaints, investigations and arrests.

For those agencies desiring assistance in developing sound record systems, or improving their present system, a copy of the FBI's Manual of Police Records has been provided, along with training of records personnel by UCR Field Representatives.

Crime data and information is submitted by state, county, and municipal law enforcement agencies on a daily, monthly, and annual basis. The daily report consists of the fingerprints of all persons arrested, detained, or charged with any crime or offense in Maryland.

On a monthly basis, organized state, municipal, and county law enforcement agencies report the number of offenses known to them in the following crime categories:

(1) Criminal Homicide
(2) Forcible Rape
(3) Robbery
(4) Assault
(5) Breaking or Entering
(6) Larceny
(7) Motor Vehicle Theft
(8) Arson*

The count of offenses is taken from the record of complaints received by law enforcement agencies from victims, witnesses, other sources, or discovered by them during their own operation. Complaints determined by subsequent investigation to be unfounded are eliminated from the count. The resulting number of "actual offenses known to law enforcement agencies" in these crime categories is reported without regard to whether anyone is arrested, stolen property is recovered, local prosecutive policy, or any other consideration. Reported offenses are recorded by the municipality and county in which they occur. Municipal law enforcement agencies report those crimes which are committed within the cities; county law enforcement agencies and state police report those crimes which occur in the counties outside the city. Law enforcement agencies also report on a monthly basis, supplemental offense information such as the value of property stolen and recovered as well as circumstances surrounding homicides and other pertinent data. Additional monthly reports of persons arrested are submitted. These reports provide information concerning the age, sex and race of persons arrested by each individual law enforcement agency. Also, a police disposition of all juveniles arrested is collected.

In addition, police employee data is collected on an annual basis.

Verification Process

An obvious concern in the collection of crime statistics for law enforcement agencies throughout the state is the uniformity

*Monthly arson reports are submitted for law enforcement agencies by the State Fire Marshal's Office and designated county agencies.

and accuracy of data received. Program aides such as guides and instructions do not necessarily guarantee the accuracy and correctness of the reports submitted by the contributors. Additional controls, therefore, are necessary.

Each report received by the UCR Section is recorded, examined and verified for mathematical accuracy, and possibly more important, for reasonableness. The verification process includes numerous checks to ensure the validity of information. The elimination of duplication of reporting by individual contributors receives particular attention. Minor errors are corrected by telephone contact with the contributors. Substantial variations and errors are adjusted through personal contacts with individual contributing agencies. The personal contacts are invaluable to the accuracy and quality of reporting. Field Representatives are engaged in a constant educational effort, and as such, provide a vital link between the UCR Program and the contributor.

Population Data

The computation of crime rates as they appear in this report by municipality, county, and state are based on 1981 population estimates provided by the Federal Bureau of Investigation through the cooperation and assistance of the United States Bureau of Census.

Monthly and annual Uniform Crime Reports are received from 136 municipal, county, and state law enforcement agencies in Maryland.

Limitations of a Uniform Crime Reporting Program

Information currently collected by the Maryland Program is generally the same as that gathered by the National system, and the methods of classifying and scoring offenses and arrests are the same. This readily enables comparisons with other states and with the nation, as a whole. However, there are limitations to the information collected which should be clearly understood before any conclusions are drawn from the UCR data presented in this report.

The main goal of the UCR Program is to furnish police administrators with a measure of their activities and operational problems as indicated by the number of reported offenses, arrests, clearances, and the like.

A first step in the control of crime is to ascertain the true dimensions of the problem. However, present statistics as gathered by the UCR Program measure neither the real incidence of crime nor the full amount of economic loss to victims. Information regarding number of offenses and clearances is collected only for the eight Part I crimes. Value and type of property stolen and recovered data is requested only for property stolen in Part I offenses. For Part II offenses (except non-aggravated assault), the only information submitted is the number of arrests for these crimes according to the age,

sex, and race of the subject. Consequently, there is no record of the actual number of these offenses occurring, nor is there a calculation made for property loss, as in cases of vandalism and embezzlement.

The Crime Index does not explicitly take into account the varying degrees of seriousness of its seven components. Each crime receives the same weight as it is added to the Index. Consequently, an auto theft is counted the same as a murder, and an aggravated assault is weighted equally with an attempted breaking or entering. Any review of crime must consider the volume, rate, and trend of each offense that comprises the Index and the relationship between these seven crimes*.

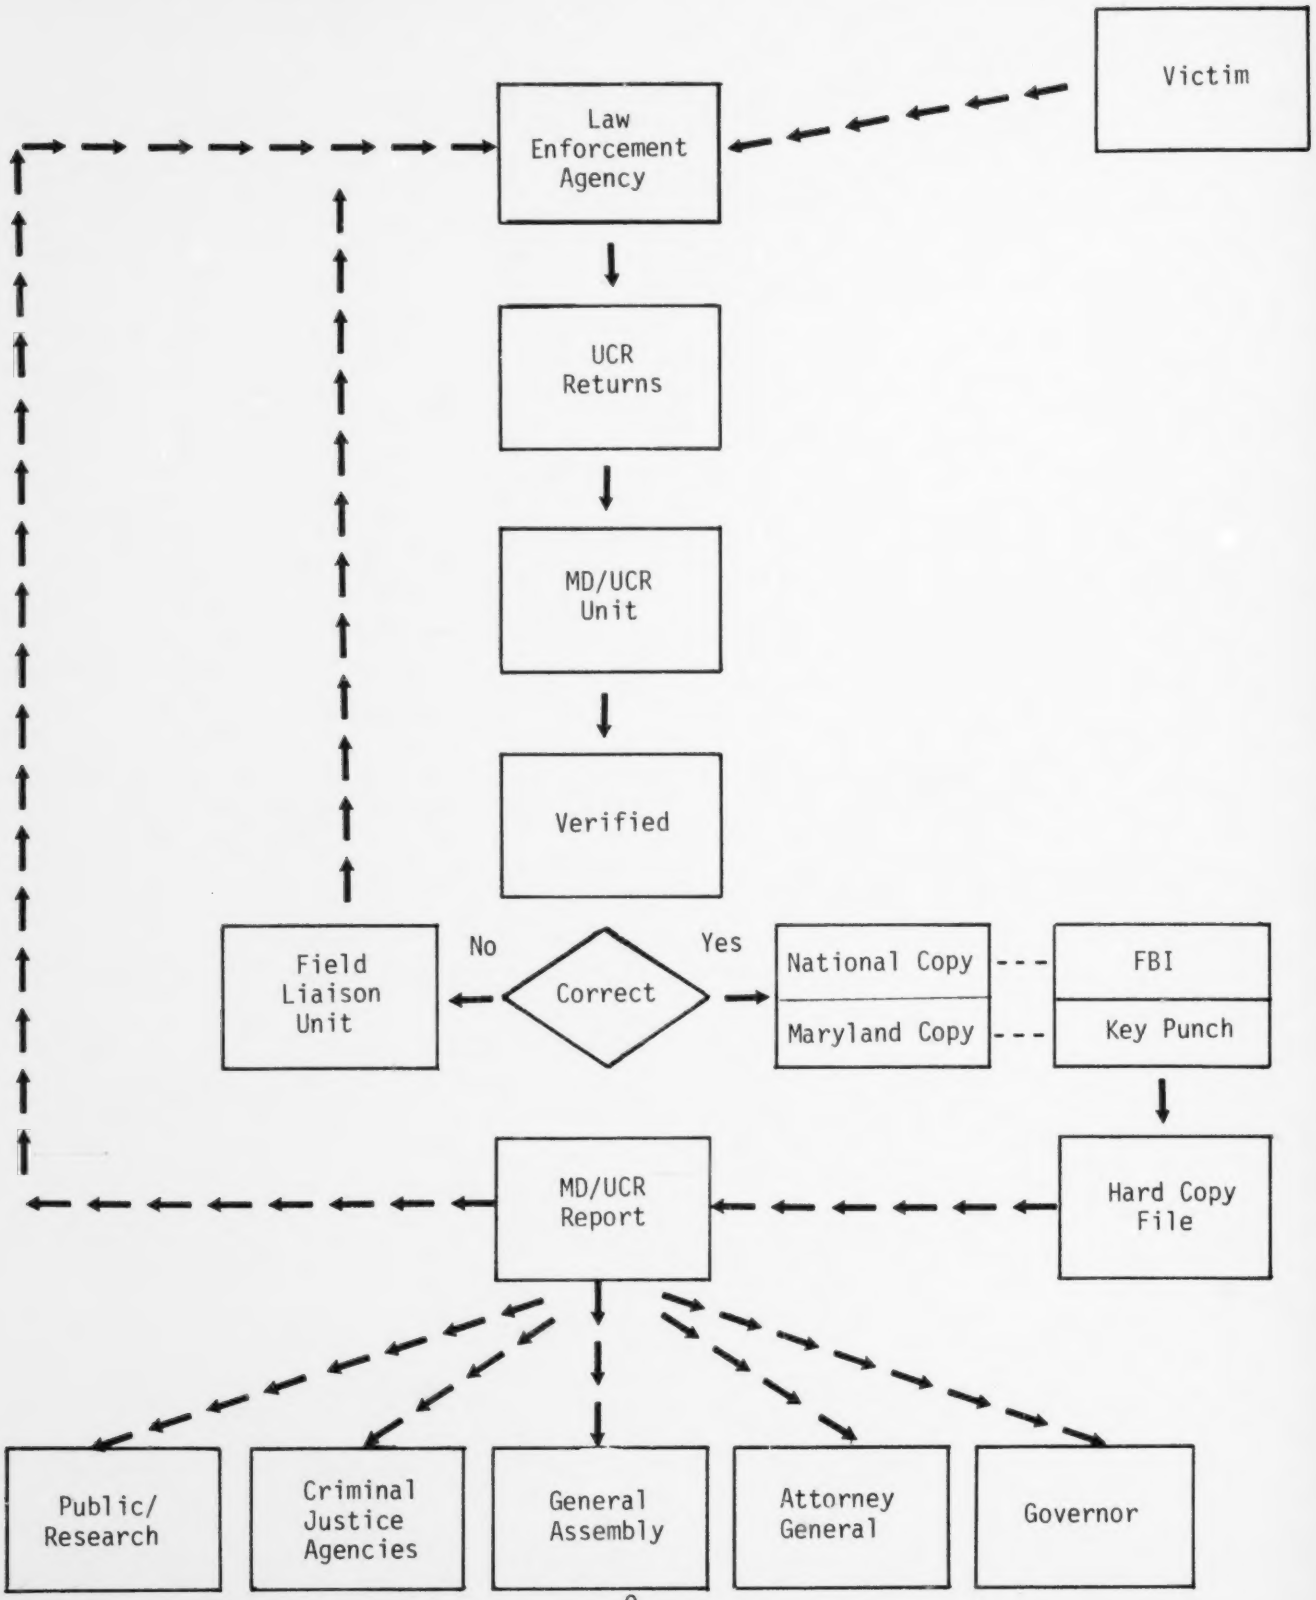
The Maryland and National Uniform Crime Reporting Programs are designed to measure offenses committed and persons arrested, and difficulties can arise if this distinction is not kept clearly in mind. Crimes relate to events, but arrests relate to persons. Unlike traffic violations where there is usually one event, with one violation and one offender, a single criminal act can involve several crimes, several offenders, and several victims. Relating specific crimes to the criminal, or specific offenses to characteristics of those arrested, is generally beyond the scope of the present Uniform Crime Reporting system.

Juvenile crime and arrest statistics, because of their nature, are another area of misunderstanding. Many juvenile offenders are handled informally and, as a consequence, inaccurate or incomplete recording of the event or action may result. Procedures for handling juveniles vary between departments, more so than the handling of adult offenders. Furthermore, the degree of juvenile involvement in solved offenses is probably seriously misunderstood, because juvenile participation in clearances is recorded only when juveniles are exclusively involved. When both adults and juveniles are subjects in a clearance, the juvenile participation is not reported.

The preceding comments should not be viewed as an indictment of the Uniform Crime Reporting Program which, admittedly, is designed for the operational requirements of law enforcement agencies. While current methods of gathering and reporting crime and arrest data provide a less than complete picture of criminality in our society, there is at present no other informational system in general use that will more adequately perform this task.

*Arson is not used at this time in computing the Crime Index.

MARYLAND UCR SYSTEM FLOW



CLASSIFICATION OF OFFENSES

Uniformity in reporting under the Maryland System is based upon the proper classification of offenses by police.

The adoption of the Federal System of Uniform Crime Reporting included the utilization of the offense classifications of that system. Law enforcement in this state has made accurate application of those classifications in the reports submitted to the Maryland Uniform Crime Reporting System.

Offenses in Uniform Crime Reporting

Offenses in Uniform Crime Reporting are divided into two groupings designated as Part I and Part II offenses. Crime Index offenses are included among the Part I offenses. Offense and arrest information is reported for the Part I offenses on a monthly basis, whereas only arrest information is reported for Part II offenses.

The Part I offenses are as follows:

1. CRIMINAL HOMICIDE -- (a) Murder and non-negligent manslaughter: All willful felonious homicides as distinguished from deaths caused by negligence. Excludes attempts to kill, assaults to kill, suicides, accidental deaths, or justifiable homicides. Justifiable homicides are limited to: (1) The killing of a person by a law enforcement officer in line of duty; and (2) The killing of a person in the act of committing a felony by a private citizen. (b) Manslaughter by negligence: Any death which the police investigation established was primarily attributable to gross negligence of some individual other than the victim.

2. FORCIBLE RAPE -- The carnal knowledge of a female, forcibly and against her will in the categories of rape by force, assault to rape, and attempted rape. Excludes statutory offenses (no force used - victim under age of consent).

3. ROBBERY -- Stealing or taking anything of value from the care, custody, or control of a person by force or by violence or by putting in fear, such as strong-arm robbery, stickups, armed robbery, assaults to rob, and attempts to rob.

4. AGGRAVATED ASSAULT -- Assault with intent to kill or for the purpose of inflicting severe bodily injury by shooting, cutting, stabbing, maiming, poisoning, scalding, or by the use of acids, explosives, or other means. Excludes simple assaults.

5. BURGLARY - BREAKING OR ENTERING -- Burglary, housebreaking, safecracking, or any breaking or unlawful entry of a structure with the intent to commit a felony or a theft. Includes attempted forcible entry.

6. LARCENY-THEFT (except motor vehicle theft) -- The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Thefts of bicycles, automobile accessories, shoplifting, pocket-picking, or any stealing of property or article which is not taken by force and violence or by fraud. Excludes embezzlement, "con" games, forgery, worthless checks, etc.

7. MOTOR VEHICLE THEFT -- Unlawful taking or stealing or attempted theft of a motor vehicle. A motor vehicle is a self-propelled vehicle that travels on the surface but not on rails. Specifically excluded from this category are motor boats, construction equipment, airplanes, and farming equipment.

8. ARSON -- Include all arrests for violations of state laws and municipal ordinances relating to arson and attempted arson. Include: any willful or malicious burning or attempts to burn, with or without intent to defraud, a dwelling house, church, college, jail, meeting house, public building or any building, ship or other vessel, motor vehicle or aircraft; contents of building, personal property of another, goods or chattels, crops, trees, fences, gates, grain, vegetable products, lumber, woods, cranberry bogs, marshes, meadows, etc.

   If personal injury results from the arson, the situation would be classified as aggravated assault. In the event a death results from arson, the incident would be classified as murder.

The Part II Offenses are as follows:

9. OTHER ASSAULTS -- Assaults and attempted assaults which do not result in serious or aggravated injury to the victim are included as other assaults. Examples of local jurisdiction offense titles which would be included in "other assaults" are: Simple assault, minor assault, assault and battery, injury by culpable negligence, resisting or obstructing an officer, intimidation, coercion, hazing, attempts to commit above.

10. FORGERY AND COUNTERFEITING -- In this class are placed all offenses dealing with the making, altering, uttering or possessing, with intent to defraud, anything false in the semblance of that which is true.

    Include: Altering or forging public and other records. Making, altering, forging, or counterfeiting bills, notes, drafts, tickets, checks, credit cards, etc. Forging wills, deeds, notes, bonds, seals, trade-marks, etc.

    Counterfeiting coins, plates, bank notes, checks, etc.

    Possessing or uttering forged or counterfeited instruments.

    Erasures.

    Signing the name of another or fictitious person with intent to defraud.

    Using forged labels.

    Possession, manufacture, etc., of counterfeiting apparatus.

    Selling goods with altered, forged, or counterfeited trade-marks.

    All attempts to commit the above.

11. FRAUD -- Fraudulent conversion and obtaining money or property by false pretenses. Includes bad checks, confidence games, etc., except forgeries and counterfeiting.

12. EMBEZZLEMENT -- Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

13. STOLEN PROPERTY; BUYING, RECEIVING, POSSESSING -- Include in this class all offenses of buying, receiving, and possessing stolen property, as well as all attempts to commit any of these offenses.

14. VANDALISM -- Vandalism consists of the willful or malicious destruction, injury, disfigurement, or defacement of any public or private property, real or personal, without consent of the owner or person having custody or control, by cutting, tearing, breaking, marking, painting, drawing, covering with filth, or any other such means as may be specified by local law. This offense covers a wide range of malicious behavior directed at property, such as: cutting auto tires, drawing obscene

pictures on public restroom walls, smashing windows, destroying school records, tipping over gravestones, defacing library books, etc. Count all arrests for the above, including attempts.

15. WEAPONS; CARRYING, POSSESSING, ETC. -- This class deals with weapon offenses, regulatory in nature, such as:

    Manufacture, sale, or possession of deadly weapons.

    Carrying deadly weapons, concealed or openly.

    Using, manufacturing, etc., silencers.

    Furnishing deadly weapons to minors.

    Aliens possessing deadly weapons.

    All attempts to commit any of the above.

16. PROSTITUTION AND COMMERCIALIZED VICE -- Include in this class the sex offenses of a commercialized nature, such as:

    Prostitution.

    Keeping bawdy house, disorderly house, or house of ill fame.

    Pandering, procuring, transporting, or detaining women for immoral purposes, etc.

    All attempts to commit any of the above.

17. SEX OFFENSES -- (Except forcible rape and prostitution and commercialized vice.) Include offenses against chastity, common decency, morals, and the like, such as:

    Adultery and fornication.

    Buggery.

    Incest.

    Indecent exposure.

    Indecent liberties.

    Intercourse with an insane, epileptic, or venerally diseased person.

Seduction.

Sodomy or crime against nature.

Statutory rape (no force).

All attempts to commit any of the above.

18. DRUG ABUSE LAWS -- Drug abuse law arrests are requested on the basis of the narcotics used. Make the following subdivisions of drug abuse law arrests:

    Include all arrests for violations of state and local laws, specifically those relating to the unlawful possession, sale, use, growing, manufacturing, and making of narcotic drugs.

    a. Opium or cocaine and their derivatives (morphine, heroin, codeine).

    b. Marijuana.

    c. Synthetic narcotics--manufactured narcotics which can cause true drug addiction (demerol, methadones).

    d. Dangerous nonnarcotic drugs (barbiturates, benzedrine).

19. GAMBLING -- All charges which relate to promoting, permitting, or engaging in gambling are included in this category. To provide a more refined collection of gambling arrests, the following breakdown of gambling arrests should be furnished.

    a. Bookmaking (horse and sport book).

    b. Numbers and lottery.

    c. All other.

20. OFFENSES AGAINST THE FAMILY AND CHILDREN -- Include here all charges of nonsupport and neglect or abuse of family and children, such as:

    Desertion, abandonment, or nonsupport of wife or child.

    Neglect or abuse of child. (If injury is serious, score as aggravated assault.)

    Nonpayment of alimony.

    All attempts to commit any of the above.

21. DRIVING UNDER THE INFLUENCE -- This class is limited to the driving or operating of any vehicle or common carrier while drunk or under the influence of liquor or narcotics. Include:

Operating a motor vehicle while intoxicated.

Operating an engine, train, streetcar, boat, etc., while intoxicated.

22. LIQUOR LAWS -- With the exception of "drunkenness" (offense #23), and "driving under the influence" (offense #21), liquor law violations, state or local, are placed in this class. Include:

Manufacture, sale, transporting, furnishing, possessing, etc., intoxicating liquor.

Maintaining unlawful drinking places.

Advertising and soliciting orders for intoxicating liquor.

Bootlegging.

Operating still.

Furnishing liquor to a minor or intemperate person.

Using a vehicle for illegal transportation of liquor.

Drinking on train or public conveyance.

All attempts to commit any of the above.

23. DRUNKENNESS -- Not reported in Maryland.

24. DISORDERLY CONDUCT -- In this class are placed all charges of committing a breach of the peace. Include:

Affray.

Unlawful assembly.

Disturbing the peace.

Disturbing meetings.

Disorderly conduct in state institutions, at court, at fairs, on trains, or public conveyances, etc.

Disguised and masked persons; night riders.

Blasphemy, profanity, and obscene language.

Desecrating flag.

Refusing to assist an officer.

All attempts to commit any of the above.

25. VAGRANCY -- Include:

Vagrancy.

Begging.

Loitering (persons 18 and over).

26. ALL OTHER OFFENSES -- Include in this class every other state or local offense not included in offenses 1 to 25, such as:

Admitting minors to improper places.

Abduction and compelling to marry.

Abortion (death resulting from abortion is a homicide, offense class 1a).

Bigamy and polygamy.

Blackmail and extortion.

Bribery.

Combination in restraint of trade; trusts, monopolies.

Contempt of court.

Criminal anarchism.

Criminal syndicalism.

Discrimination; unfair competition.

Kidnapping.

Marriage within prohibited degrees.

Offenses contributing to juvenile delinquency (except as provided for in offenses 1 to 28 inclusive), such as employment of children in immoral vocations or practices, admitting minors to improper place, etc.

Perjury and subornation of perjury.

Possession, repair, manufacture, etc., of burglar's tools.

Possession or sale of obscene literature, pictures, etc.

Public nuisances.

Riot and rout.

Trespass.

Unlawfully bringing weapons into prisons or hospitals.

Unlawfully bringing drugs or liquor into state prisons, hospitals, etc.; furnishing to convicts.

Unlawful disinterment of the dead and violation of sepulture.

Unlawful use, possession, etc., of explosives.

Violation of state regulatory laws and municipal ordinances (this does not include those offenses or regulations which belong in the above classes).

Violation of quarantine.

All offenses not otherwise classified.

All attempts to commit any of the above.

27. SUSPICION -- While "suspicion" is not an offense, it is the ground for many arrests in those jurisdictions where the law permits. After examination by the police, the prisoner is either formally charged or released. Those formally charged are entered in one of the Part I or II offense classes. This class is limited to "suspicion" arrests where persons arrested are released by the police.

28. CURFEW AND LOITERING LAWS -- (JUVENILES) -- Count all arrests made by your department for violation of local curfew or loitering ordinances where such laws exist.

29. RUN-AWAY (JUVENILES) -- For the purpose of Uniform Crime Reporting Program, report in this category apprehensions for protective custody as defined by your local statute. Count arrests made by other jurisdictions of run-aways from your jurisdiction. Do not include protective custody actions with respect to run-aways you take for other jurisdictions.

CRIME FACTORS

Statistics gathered under the Uniform Crime Reporting Program are submitted by the law enforcement agencies of Maryland and project a statewide view of crime. Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role to its suppression and detection. As stated by the President's Commission on Law Enforcement and Administration of Criminal Justice in their report "The Challenge of Crime in a Free Society" (1967 - Page 92):

> "But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the criminal justice system is only one part of the government; and the government is only one part of society. Insofar as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time."

Set forth below are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

Density and size of the community population and the metropolitan area of which it is a part.

Composition of the population with reference particularly to age, sex and race.

Economic status of the population.

Relative stability of population, including commuters, seasonal, and other transient types.

Climate, including seasonal weather conditions.

Educational, recreational, and religious characteristics.

Standards governing appointments to the police force.

Policies of the prosecuting officials and the courts.

Attitude of the public toward law enforcement problems.

The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

Organization and cooperation of adjoining and overlapping police jurisdictions.

CRIME INDEX

The tabulations presented in the tables, graphs, and charts in this publication indicate the volume and distribution of crime in Maryland on the basis of a Crime Index. The crime figures are broken down by agency, county, regional, and state totals.

The total number of criminal acts that occur is unknown, but those that are reported to law enforcement provide the first means of a count. Not all crimes are of sufficient importance to be significant in an index; and not all important crimes occur with enough regularity to be meaningful in an index. With these considerations in mind, the crimes below were selected as a group to furnish a convenient measure of the crime problem:

1. Murder and Nonnegligent Manslaughter
2. Forcible Rape
3. Robbery
4. Aggravated Assault
5. Breaking or Entering
6. Larceny-Theft
7. Motor Vehicle Theft
8. Arson*

These offenses were selected because they are serious either by nature or frequency of occurrence.

The crime counts set forth in this publication are actual offenses established by police investigation. When police receive a complaint of a crime and the follow-up investigation discloses no crime occurred, it is "unfounded".

In 1981, police investigations "unfounded" 8 percent of the complaints concerning Index Offenses, ranging from 1 percent in the Aggravated Assault category to 15 percent in the Motor Vehicle Theft category. When compared to 1980, there were 1 percent "unfounded" in the Aggravated Assault category, and 16 percent in the Motor Vehicle Theft category.

Calculation of Rates and Trends

The Uniform Crime Reporting Program provides data for police executives to measure local problems. To facilitate this function, it is sometimes necessary to convert the data into rates, percentages, or trends. Certain guidelines are presented.

Crime Rates

One of the most meaningful crime statistics is the Crime Rate. This rate is the number of offenses per 100,000 inhabitants.

*1981 arson statistics are not included in the Crime Index in this report.

This rate can be calculated regardless of the number of inhabitants in your city or county. To compute rates, divide your city's population by 100,000 and divide the number of offenses in each class by that answer. The answer is the number of offenses in each class per 100,000 and is your Crime Rate for that offense.

Example:

a. Population for your jurisdiction 75,000
b. Number of burglaries for your jurisdiction for a year 215

Divide 75,000 by 100,000 = .75

Divide 215 by .75 = 286.7

Your burglary rate: 286.7 per 100,000 inhabitants

The number of .75 can now be divided into your totals in any offense class to produce a Crime Rate for that offense.

This same computation can be completed to give you arrest rates per 100,000 inhabitants.

Clearance Rates

The percentage of crimes cleared by arrest is obtained by dividing the number of offenses cleared by the number of actual offenses. This answer is then multiplied by 100. An example of this calculation is:

a. Number of clearances in robbery 38
b. Number of actual robberies 72

Divide 38 by 72 = .528

Multiply: .528 x 100 = 52.8

Your percentage of clearance in robbery is 52.8%.

Percent of Change

The method most commonly used to compare crime statistics for the current year with any prior year is the Percent of Change. This Percent is calculated by subtracting the prior year's data from the current year's data and dividing the resulting figure by the prior year's data. The answer is then multiplied by 100. An example of this calculation is:

a.	1981 Robberies	18,095
b.	1980 Robberies	16,462

Subtract 16,462 from 18,095 = 1,633

Divide 1,633 by 16,462 = +.099

Multiply +.099 x 100 = + 9.9

Your Percent of Change in Robbery is + 9.9 or 10 percent when rounded.

MARYLAND
OFFENSE DATA

CRIME INDEX OFFENSES

VOLUME

A total of 279,663 Crime Index Offenses were reported to law enforcement agencies in Maryland during the Calendar Year 1981. This represents an increase of 1 percent when compared to the 1980 data which was comprised of a total of 277,828 Crime Index Offenses.

The Crime Index Offenses referred to here represent the most common problem to law enforcement. They are serious crimes by their nature, volume or frequency of occurrence. Basically, they can be categorized as Violent Crime, which include Murder, Forcible Rape, Robbery, and Aggravated Assault, or as Property Crimes which include Breaking or Entering, Larceny and Motor Vehicle Theft.

An analysis of the total Index by month in 1981 shows that August had the highest frequency of occurrence and January had the lowest. Compared to 1980, August had the highest frequency and February had the lowest.

VIOLENT CRIME

Violent Crimes involve the element of personal confrontation between the perpetrator and the victim. Because of their very nature Violent Crimes are considered more serious than Property Crimes. These offenses accounted for 14 percent of the total Crime Index for 1981. In 1980 these offenses accounted for 13 percent of the total Crime Index.

Analyzing the Violent Crimes by month reveals August had the greatest frequency of occurrence, while February had the lowest, the same as in 1980.

PROPERTY CRIME

The number of Property Crimes reported during 1981 was more than 6 times greater than the number of Violent Crimes reported. As a group, Property Crimes made up 86 percent of the total Crime Index. In 1980, Property Crimes made up 87 percent of the total Crime Index.

A monthly analysis showed August had the highest frequency of occurrence and January had the lowest. During 1980, August was the highest and February was the lowest.

RATES

Crime Rates relate the incidence of crime to the resident population. Many other factors which may contribute to the volume

and type of crime in a given jurisdiction are not incorporated here, but are shown in the section entitled "Crime Factors".

In 1981, the Crime Rate for Maryland was 6,563.3 victims for every 100,000 population. This represents a 1 percent decrease in the Crime Rate when compared to 1980 with 6,627.6 victims per 100,000 population.

The 1981 Rate for the Violent Crime group was established at 888.8 victims per 100,000 inhabitants, a 4 percent increase compared with 1980. The Property Crime group resulted in a Rate of 5,674.5 per 100,000 inhabitants. This results in a 2 percent decrease when compared to 1980.

CLEARANCES

For Uniform Crime Reporting purposes, a crime is cleared when police have identified the offender, have evidence to charge him and actually take him into custody. Solutions of crimes are also recorded in exceptional instances where some element beyond police control precludes formal charges against the offender, such as the victim's refusal to prosecute or local prosecution is declined because the subject is being prosecuted elsewhere for a crime committed in another jurisdiction. The arrest of one person can clear several crimes or several persons may be arrested in the process of solving one crime.

Maryland law enforcement agencies cleared 21 percent of all Index Offenses reported to them in 1981. During 1980, police cleared 20 percent of the Index Offenses reported.

The Violent Crimes recorded a 40 percent clearance rate as compared to 1980 with a 41 percent clearance rate. The Property Crime group revealed an 18 percent clearance rate in 1981. During 1980, police cleared 17 percent of the Property Crimes.

Considering individually the 1981 Violent Crime solution rate, it was determined that police were successful in solving 81 percent of the Murder, 58 percent of the Rapes, 23 percent of the Robberies, and 55 percent of the Aggravated Assaults. The Property Crime solution rates were 17 percent for Breaking or Entering, 18 percent for Larceny, and 17 percent for Motor Vehicle Theft.

The relatively high clearance rate for Violent Crimes as compared to non-violent Property Crimes is in part attributable to the volume difference between the two. Property Crime volume is much greater than that of Violent Crime and police investigation of Violent Crime is usually more intense. The element of confrontation between victim and perpetrator, as well as witness identification of the perpetrator, also contributes to this higher rate of solution.

Juvenile Clearances

In 1981, the clearance involvement of those persons under the age of 18 represented 27 percent of all cases cleared, compared to 29 percent in 1980.

The juvenile clearances for the Violent Crime category represented 17 percent of those cases solved, the same as in 1980, with 7 percent clearances in Murder cases, 7 percent clearances in Rape cases, 24 percent clearances in Robbery cases, and 15 percent clearances in Aggravated Assault cases.

The Property Crime clearances involving juveniles, represented 30 percent of those cases solved, as compared to 33 percent in 1980, with 33 percent in Breaking or Entering cases, 29 percent in Larceny cases, and 30 percent in Motor Vehicle Theft cases.

Stolen Property Value

The total value of Property Stolen during 1981 was $164,188,701 which resulted in a 4 percent increase over 1980. Recovered Property amounted to $44,382,502 which is 27 percent of the total stolen, resulting in a $119,806,199 property loss to victims in the State of Maryland during 1981. This property loss results in a .4 percent increase when compared to the property loss in 1980.

MURDER

MURDER

Murder is defined as the willful (nonnegligent) killing of one human being by another. As a general rule, any death due to a fight, argument, quarrel, assault, or commission of a crime is counted as a Murder. This offense is scored on the basis of police investigation without regard to the findings of a court or jury or the decision of a prosecutor. Assaults to Murder and Attempted Murders are counted as Aggravated Assaults. Suicide, accidental deaths and justifiable homicides are also excluded.

VOLUME

In 1981, a total of 422 Murders were reported to law enforcement agencies in Maryland. This compares to 399 Murders in 1980 and results in an increase of 5.8 percent. Murder comprises 1 percent of the total Violent Crime category and .2 percent of the total Crime Index.

A monthly analysis of Murder indicates that January, March and June had the highest frequencies and April and October had the lowest frequencies. In 1980, July had the highest frequency and April and October had the lowest frequencies.

RATE

In 1981 there were 9.9 victims of Murder for every 100,000 residents in Maryland. During 1980, we reported a Murder Rate of 9.5 victims per 100,000 population resulting in a 4.2 percent increase.

NATURE

In 1981, firearms predominated as the weapon most often used in the commission of Murder in Maryland, representing 58.8 percent of the total. This compares to 58.4 percent of the total during 1980. 44.1 percent of the total Murders were committed with handguns, while 23.0 percent were committed with a knife or cutting instrument, 10.2 percent with a shotgun, 4.3 percent with personal weapons, and 14 percent with other dangerous weapons. In 1980, 46.9 percent of the total Murders were committed with handguns, while 27.1 percent were committed with a knife or cutting instrument, 5.3 percent with a shotgun, 4.5 percent with personal weapons and 10.0 percent with other dangerous weapons.

The largest number of Murders (81) occurred in the 20-24 age group, which comprised 19.2 percent of the total. In 1980, the largest number of Murders (85) occurred in the 25-29 age group, which comprised 21.3 percent of the total.

Murders, as a result of Robberies, accounted for 18.7 percent of the total Murders, while narcotic related Murders represented 11.8 percent. 12.1 percent of the Murders were a result of arguments, while in 39.6 percent of the Murders the circumstances were not determined at the time of the report. In 1980, Murders, as a result of Robberies, only accounted for 11 percent of the total Murders, while narcotic related Murders represented 7 percent. 16.5 percent of the Murders were a result of arguments, while in 48.4 percent of the Murders, the circumstances were not determined at the time of the report.

Clearances

In 1981, 81 percent of all Murders were cleared with 7 percent of the total solved involving juvenile arrests. This compares to 1980 with a 77 percent clearance rate and 5 percent of the total cleared involving juveniles.

Persons Arrested

A total of 492 persons were arrested in Maryland for Murder during 1981. This represents a 25.8 percent increase when compared to 1980, with a total of 391 persons arrested for Murder.

Of this total, 90 percent were males and 10 percent female. 74 percent of the total were black while 26 percent were white. 86 percent were adults and 14 percent were juveniles.

RAPE

RAPE

Rape is the carnal knowledge of a female forcibly and against her will. In Uniform Crime Reporting, Rape is divided into two categories: (1) Rape by Force; (2) Attempt to commit Forcible Rape. Statutory Rape or the carnal knowledge of a female with no force used and where the victim is under the legal age of consent, as well as other sex offenses, are not included in this category.

VOLUME

During 1981, 1,663 Forcible Rapes were reported to Maryland law enforcement agencies. This compares to 1,681 Rapes during 1980 and results in a 1 percent increase.

Rape accounted for 4 percent of the Violent Crimes and .6 percent of the total Crime Index.

The month of July showed the highest frequency of Rapes, while April showed the lowest. In 1980, August had the highest frequency and February and March showed the lowest.

RATE

A Crime Rate, in its proper perspective, is a victim risk rate since it equates the number of crimes per unit of population. In 1981, 78.1 out of every 100,000 females in Maryland were reported Rape victims, as compared to 1980, when 80.2 per 100,000 female population were reported victims. This results in a 2.6 percent decrease in the rate of Forcible Rapes.

NATURE

During 1981, 78 percent of all Rapes were actual Rapes by Force while 22 percent were attempts or assaults to commit Forcible Rape, the same as in 1980.

CLEARANCES

In Calendar Year 1981, 58 percent of the total number of Rapes were cleared by arrest with 7 percent of the total solved involving juvenile arrests. In 1980, 54 percent of the total Rapes were cleared and 9 percent of the total cleared involved juveniles.

Persons Arrested

In 1981, there were 919 persons arrested for Rape in Maryland. In comparison to 1980, with 869, there was a 5.8 percent increase in the number of arrests.

83 percent of the total number were 18 years of age or older, while the remaining 17 percent were juveniles. 68 percent of the total were black and 32 percent white.

ROBBERY

ROBBERY

Robbery is defined as the taking, or attempting to take, anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear. The element of personal confrontation is always present in this crime. Under the Uniform Crime Reporting Program, all attempts to commit Robbery are included. Robberies are reported in four general categories -- firearms; knife or cutting instrument; other dangerous weapons; and hands, fists, feet, etc. As a general rule, Robbery differs from Larceny in that it is aggravated by the element of force or threat of force.

Robbery, as a crime of Violence, has a serious impact on the victim. In many instances serious injury results. Oftentime, with or without physical injury, the victim suffers mental anguish. Such damage is immeasurable.

VOLUME

During 1981, there were 18,095 actual Robbery offenses reported to Maryland law enforcement agencies. In 1980, there were 16,462 Robberies, which results in an increase of 10 percent.

Robbery accounted for 48 percent of the Violent Crime category and 6.5 percent of the total Crime Index.

A monthly comparison reveals that January had the highest frequency of Robberies, while April had the lowest frequency. In 1980, December had the highest frequency and April had the lowest.

RATE

The 1981 Robbery Rate was 424.7 per 100,000 inhabitants. This compares to a rate of 392.7 per 100,000 population in 1980, and results in an 8.1 percent increase in the Robbery Rate.

NATURE

During 1981, 59.7 percent of the Robberies were committed in the street, while only 1.5 percent were Bank Robberies. This compares to 1980 when 60.9 percent were committed in the street and 1.5 percent were Bank Robberies.

Bank Robberies accounted for the highest average value loss, $5,757 in 1981. The average value loss for total Robberies was 512.

Armed perpetrators were responsible for 58.0 percent of the Robbery offenses while 42.0 percent were muggings or strong-armed Robberies. This compares to 1980, when 54.7 percent involved Armed Robberies and 45.3 percent were strong-arm.

An analysis of Armed Robbery by type of weapon indicates that the use of firearms was predominate, accounting for 76.2 percent of all Armed Robberies. Knives or cutting instruments made up 12.8 percent while other dangerous weapons accounted for 10.9 percent of all Armed Robberies. In 1980, 74.7 percent of the total Armed Robberies were committed with firearms, 13.7 percent with knives or cutting instruments, and 11.6 percent with other dangerous weapons.

Clearances

In 1981, 23 percent of the total number of Robberies were cleared by arrest with 24 percent of the total solved involving a juvenile arrest. In 1980, 23 percent of the Robberies were cleared and 29 percent of those involved juveniles.

23 percent of the Armed Robberies were cleared with 12 percent of the total solved involving a juvenile arrest. 23 percent of the strong-arm Robberies recorded a clearance, while 41 percent of the total involved juveniles.

Persons Arrested

5,403 persons were arrested for Robbery in Maryland during 1981. In comparison with 1980, and a total of 4,964 persons arrested, there was an 8.8 percent increase in Robbery arrests.

62 percent of the total number of persons arrested for Robbery were adults, while the remaining 38 percent were juveniles.

81 percent of the total persons arrested were black and 19 percent were white. 96 percent were males and 4 percent females.

AGGRAVATED ASSAULT

AGGRAVATED ASSAULT

Aggravated Assault, as defined under the Maryland Uniform Crime Reporting Program, is an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts are included since it is not necessary that any injury result when a gun, knife, or other weapon is used which would result in serious personal injury if the crime were successfully completed. Also included in this category are all attempted Murders.

Any assault in which hands, fists and feet are used and no serious injury to the victim results, is classified as a simple assault which falls into the Part II category, and is not included as a Crime Index Offense.

VOLUME

During 1981, a total of 17,691 Aggravated Assaults were reported to Maryland law enforcement agencies. In comparison, there were 17,182 Aggravated Assaults in 1980, resulting in a 3 percent increase.

Aggravated Assault made up 47 percent of the Violent Crime category and 6.3 percent of the total Crime Index.

The month of July had the highest frequency of Aggravated Assaults occurring while February had the lowest. During 1980, August showed the highest frequency and February showed the lowest.

RATE

For each 100,000 persons in Maryland during 1981, there were 415.2 victims of Aggravated Assault. During 1980, there were 409.9 Aggravated Assault victims per 100,000 population. A comparison of the two years results in a 1.3 percent increase.

NATURE

In 1981, 25.4 percent of the Aggravated Assaults were committed with the use of a firearm. A knife or cutting instrument was used in 23.8 percent of Assaults, and 31.9 percent were committed with other dangerous weapons. The remaining 18.9 percent were committed with personal weapons such as hands, fists, feet, etc. These figures compare to 1980, when 22.1 percent of Aggravated Assaults were committed with a firearm, 23.9 percent

with a knife or cutting instrument, 33.6 percent with other dangerous weapons, and 20.4 percent with personal weapons.

Clearances

55 percent of the total number of Aggravated Assaults were cleared by arrest with 15 percent of the total clearances involving juveniles. As compared to 1980, 57 percent of the total were cleared, and of those cleared, 15 percent involved juveniles.

Persons Arrested

There were 5,606 arrests for Aggravated Assault in Maryland during 1981. This results in a 3.6 percent decrease when compared to 1980, with 5,815 persons arrested.

77 percent of the total number of persons arrested for Aggravated Assault were adults, while 23 percent were juveniles. 49 percent of the total were black, 50 percent white, and 1 percent of other races. 85 percent of the total were males, while 15 percent were females.

BREAKING OR ENTERING

BREAKING OR ENTERING

Breaking or Entering is defined as the unlawful entry of a structure to commit a felony or a theft.

Data collection for this offense is further categorized as to forcible entries, unlawful entries where no force is used, and attempted forcible entries.

As with other Property Crimes, the motive of personal gain coupled with the element of opportunity, results in the commission of this offense by both the amateur and the professional perpetrator. Only the absence of confrontation and use of force separate this crime from Robbery of the the Violent Crime group.

The volume of this offense presents the police with a serious enforcement problem, made more difficult in many areas, by the lack of sufficient personnel to act as a deterrent and to provide successful solutions to these crimes.

VOLUME

In 1981, a total of 70,762 Breaking or Enterings were reported to Maryland law enforcement agencies. In comparison, there were 71,130 Breaking or Enterings in 1980 resulting in a 1 percent decrease.

Breaking or Enterings made up 29 percent of the Property Crime category and 25.3 percent of the total Crime Index.

A monthly analysis reveals that January had the highest frequency of occurrence while May had the lowest frequency. In 1980, December showed the highest frequency and February showed the lowest.

RATE

The Breaking or Entering Rate was 1,660.7 per 100,000 inhabitants of Maryland during 1981. In 1980, there were 1,696.8 Breaking or Entering victims per 100,000 population. In comparison, this results in a 2.1 percent decrease in the Breaking or Entering Rate.

NATURE

In 1981, 78.2 percent of the Breaking or Enterings involved forcible entry, 11.7 percent were unlawful entries (without force), and 10.1 percent were recorded as attempted forcible entries.

In comparison, 77.1 percent were forcible entry, 13.2 percent were unlawful entries, and 9.7 percent were attempted forcible entries during 1980.

67.4 percent of all Breaking or Enterings were committed in a residence, while 32.6 percent were committed in a nonresidence structure. During 1980, 67.2 percent were committed in a residence, while 32.8 percent were committed in a nonresidence structure.

The average dollar value loss for Breaking or Entering was $926. This compares to 1980 with $937, and results in a 1.2 percent decrease.

Clearances

In 1981, law enforcement agencies in Maryland were successful in clearing 17 percent of the total Breaking or Entering Offenses, of which 33 percent involved juveniles. During 1980, police cleared 17 percent of the total Breaking or Enterings, with 35 percent of that number involving juveniles.

Persons Arrested

In 1981, there were 14,321 persons arrested in Maryland for Breaking or Entering. When compared to 1980, with 13,983 arrests, there is a 2 percent increase in Breaking or Entering arrests.

53 percent of the total number of persons arrested for Breaking or Entering were adults, while 47 percent were juveniles. 53 percent of the total were white, 46 percent were black, and 1 percent of other races. 95 percent of the total were males, while the remaining 5 percent were females.

LARCENY

LARCENY

Larceny-Theft is defined as the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. It includes such crimes as pocket-picking, shoplifting, purse snatching, thefts from autos, thefts of auto parts and accessories, bicycle theft, etc. In the UCR Program, this category does not include embezzlement, fraud, forgery, and worthless checks. Motor Vehicle Theft, being a special problem, is a separate Crime Index Offense and is not reported in the Larceny-Theft category.

Larceny Offenses cleared by police arrest are dramatically affected by the nature of the crime. As with other Property Crimes, opportunity and stealth, working in favor of the perpetrator and against police detection, reduce solutions for this offense.

As with other Offenses against Property, Larceny is primarily a crime of opportunity. Types of Larcenies will differ in volume depending upon the opportunity for theft offered in a given area.

The average dollar loss in this category was $288 as compared to 1980, with an average loss of $282, and results in a 2.1 percent increase. A very small portion of goods stolen are recovered and returned to victims, due to a low clearance rate and lack of specific identification characteristics on such property. In addition, many offenses in this category, particularly where the value of goods stolen is small, never come to police attention.

VOLUME

In 1981, there were 152,544 Offenses of Larceny-Theft reported as compared to 1980 with 152,089 Offenses and a .3 percent increase. Larceny-Theft makes up 54.5 percent of the Crime Index total and 63.1 percent of the Property Crime total.

August shows the highest frequency of Larceny Offenses in a monthly analysis, while January shows the lowest. This compares with 1980, when August showed the highest frequency and February showed the lowest.

RATE

The Larceny Crime Rate was 3,580.0 per 100,000 inhabitants of Maryland during 1981. In 1980, there were 3,628.1 Larcenies per 100,000 population, resulting in a 1.3 percent decrease in the Larceny Rate.

Nature

Larcenies of Auto Parts and Accessories recorded the highest percentage with 25.6 percent of the total Larcenies reported in this category. Pocket-Picking had the lowest frequency with a .8 percent of the total. In 1980, Larcenies of Auto Parts and Accessories had the highest frequency with a 26.2 percent of the total while Pocket-Picking had the lowest frequency with .9 percent.

Clearances

In 1981, law enforcement agencies cleared 18 percent of the total Larceny-Theft Offenses, of which 29 percent of the total clearances involved juveniles. This demonstrates the involvement of the young age group in the Larceny-Theft category. In 1980, police cleared 18 percent of the total Larceny Offenses with 33 percent of that number involving a juvenile arrest.

Persons Arrested

There were 30,528 persons arrested for Larceny in Maryland during 1981. In comparison to 1980, with 29,996 Larceny arrests, there was a 1.8 percent increase in the number of persons arrested.

36 percent of the total persons arrested for Larceny were under 18 years of age. However, when individuals under the age of 21 were considered, the percentage rose to 54 percent of the total.

Females comprised 24 percent of all arrests for Larceny, and had a greater involvement in this offense than in any of the other Crime Index Offenses.

56 percent of all persons arrested for Larceny were black and 44 percent were white.

MOTOR VEHICLE THEFT

MOTOR VEHICLE THEFT

Motor Vehicle Theft is defined as the theft or attempted theft of a motor vehicle. This definition excludes taking a motor vehicle for temporary use, such as a family situation or unauthorized use by others having lawful access to the vehicle, such as chauffeurs, etc.

The crime of Motor Vehicle Theft has been labeled primarily as a crime of opportunity. The youthful offender finds the motor vehicle easily accessible for transportation for any purpose. The remaining thefts are mainly for the purpose of resale, theft of parts, and for use in committing other crimes.

VOLUME

In 1981, there were 18,486 Motor Vehicle Thefts reported to law enforcement agencies in the state of Maryland. This is a 2 percent decrease when compared to the 18,885 Motor Vehicle Thefts reported in 1980. Motor Vehicle Theft makes up 7.6 percent of the Property Offense category and 6.6 percent of the Index Offenses.

A monthly analysis for 1981 indicates that more motor vehicles were stolen during July than other months, and April showed the fewest being stolen. During 1980, August had the greatest frequency of Motor Vehicle Thefts and February showed the fewest number being stolen.

RATE

The Motor Vehicle Theft Rate of 433.8 per 100,000 inhabitants is 3.7 percent lower than the rate of 450.5 per 100,000 inhabitants for 1980.

NATURE

Automobiles accounted for 73.1 percent of the total number of vehicles stolen. Trucks and buses made up 10.5 percent and other motor vehicles comprised 16.4 percent of the total.

68.8 percent of the stolen value was recovered. This is a 2 percent increase when compared to the 67.3 percent of the stolen value recovered in 1980.

Clearances

In 1981, law enforcement agencies cleared 17 percent of the Motor Vehicle Thefts, when compared to the 16 percent cleared in 1980.

30 percent of the total clearances for Motor Vehicle Theft involved juveniles during 1981, compared to 33 percent in 1981.

Persons Arrested

3,135 persons were arrested in Maryland for Motor Vehicle Theft during 1981. This results in an 11.8 percent decrease when compared to the 3,556 arrests in 1980.

Of the total persons arrested for Motor Vehicle Theft, 53 percent were adults and 47 percent juveniles. 48 percent of the total were white, while 52 percent were black. 92 percent of the total persons arrested for Motor Vehicle Theft were males and 8 percent were females.

ARSON

ARSON

Arson is defined as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined through investigation to have been willfully or maliciously set are classified as Arsons. Fires of suspicious or unknown origins are excluded.

Arson offenses frequently occur in conjunction with other index crimes; e.g., Breaking or Entering. However, according to UCR procedures in such multiple offense situations, only one crime is selected on the basis of an established hierarchy. For example, if a Breaking or Entering and Arson occurred at the same time and place, only the Breaking or Entering would be reported if the crimes were subjected to the hierarchy rule of reporting index offenses. This assumes that Arson would be listed subordinate to Breaking or Entering in the hierarchy. Arson has been excluded from this hierarchical procedure, and regardless of its occurrence in conjunction with another crime against property or crime against a person, the Arson is reported.

VOLUME

In 1981, there were 3,923 Arsons reported. This is a 1.6 percent increase when compared to the 3,863 Arsons reported in 1980.

A monthly analysis indicates March had the highest frequency of occurrence, while June had the lowest. In 1980, November and December showed the highest frequency, while May showed the lowest.

NATURE

The most frequent target of Arsons in 1981 were structures, comprising 57 percent of the total reported incidents. Mobile (motor vehicles, trailers, airplanes, boats, etc.) and other property (crops, timber, fences, signs, etc.) accounted for the remaining offenses with 15 and 28 percent respectively.

Residences comprised 57 percent of the structures at which Arsons were directed. 15 percent of all targeted structural property was uninhabited or abandoned at the time the Arson occurred.

The total monetary value of property damaged, due to reported Arsons during 1981, was over 27 million dollars with an average loss per incident of $6,923. Industrial/manufacturing structures registered the highest average loss at $23,638 per offense.

Clearances

25 percent of all reported Arsons were cleared by arrest or exceptional means in 1981, compared to 21 percent in 1980.

51 percent of the total clearances for Arson involved juveniles during 1981, compared to 44 percent in 1980.

Persons Arrested

In 1981, there were 847 persons arrested in Maryland for Arson. This results in a 12 percent increase when compared to the 756 arrests in 1980.

44 percent of the total number of persons arrested for Arson were adults, while 56 percent were juveniles. 71 percent of the total were white and 29 percent were black. 86 percent of the total were males, while the remaining 14 percent were females.

INDEX OFFENSE DATA

The tables contained within this section were designed to facilitate quick reference of statistical crime information relative to the different reporting areas of the State of Maryland.

The tables are broken down by Regions. Within each Region information is listed in County name sequence and is further detailed to show the activity experienced by individual police agencies. The general identifying descriptions which indicate the reporting areas are listed and defined as follows:

Region Total - This line indicates the total activity of all the Counties within the indicated Region.

County Total - This line indicates the total activity of all reporting Agencies within the indicated County.

Sheriff - This line indicates the total activity reported by Sheriff's Offices. This is to include activity which may have occurred within the corporate limits of towns in that County.

County Police Departments - This line indicates the total activity reported by County Police Departments. This is to include activity which may have occurred within the corporate limits of towns in that County.

State Police - This line indicates the total activity reported by all State Police installations within the indicated reporting area. This is to include activity which may have occurred within the corporate limits of towns in that County.

Municipal Police Departments - This line indicates the total activity reported by the individually specified police department to include only those crimes which were handled by that department.

INDEX OFFENSE DATA (Cont'd)

The five Regions used in the Maryland Uniform Crime Reporting Program consist of the following:

Region I - Eastern Shore

- Caroline County
- Cecil County
- Dorchester County
- Kent County
- Queen Anne's County
- Somerset County
- Talbot County
- Wicomico County
- Worcester County

Region II - Southern Maryland

- Calvert County
- Charles County
- St. Mary's County

Region III - Western Maryland

- Allegany County
- Carroll County
- Frederick County
- Garrett County
- Washington County

Region IV - Washington Metropolitan Region

- Montgomery County
- Prince George's County

Region V - Baltimore Metropolitan Region

- Baltimore City
- Anne Arundel County
- Baltimore County
- Harford County
- Howard County

The tabulations in this section indicate the volume of Crime in Maryland. The measure used is a Crime Index consisting of seven offenses which are counted as they become known to the law enforcement agencies. Crime classifications used in the Index are: Murder and Nonnegligent Manslaughter, Forcible Rape, Robbery, Aggravated Assault, Breaking or Entering, Larceny-Theft, and Motor Vehicle Theft*.

*Arson figures included are not computed in the total offenses or crime rates.

INDEX OFFENSE DATA (Cont'd)

Each heading contained in this report is defined below:

Population: Estimated population of the State, Regions, and Counties. This information, representative of 1980, was provided by the Federal Bureau of Investigation.

Total Offenses: This is the sum total of the seven Index Offenses.

Total Cleared: The sum total of the seven Index Offenses cleared.

Percent Cleared: The percentage of Index Offenses cleared by arrest or exceptional means. The mathematical formula may be expressed as follows:

$$\text{Percent Cleared} = \frac{\text{Total Index Offenses Cleared}}{\text{Total Actual Index Offenses Reported}} \times 100$$

Crime Rate: This rate is the number of Index Offenses per 100,000 population. To compute a crime rate, you must divide the population by 100,000 and divide the number of offenses by that answer.

Example: Population for Region I = 295,824
Number of Index Offenses for Region I in 1980 = 14,522

$$\frac{295,824}{100,000} = 2,958$$

$$\frac{14,522}{2,958} = 4,909.4$$

Crime Rate for Region I = 4,909.4

Crime Rates for the individual agencies are not calculated in the following table because of overlapping jurisdiction in many cities of municipal, county and state law enforcement agencies. This table contains the offenses reported by the individual agencies with crime rates for the county and region totals. Arson offenses in this table are listed opposite the agency reporting the arson. In the Municipality Table, the Arsons are listed in the municipality where they occurred.

MUNICIPALITY CRIME RATES

Crime Rates for the individual cities are calculated in the following table. The rates for many cities are based on combined figures of municipal, county and state Law Enforcement Agencies due to overlapping jurisdictions.*

*Crime Rates for individual cities in Prince George's County are not calculated in this publication because of the overlapping jurisdictions. At this time Prince George's County Police Department is unable to furnish the Maryland UCR Program with a breakdown of crime for the municipalities in their jurisdiction. Therefore, to have computed a crime rate for many cities in Prince George's County would have given a misleading picture of the crime problem in those areas.

***PR. GEORGE'S COUNTY											

*Breakdown by Municipality for arson not available from Montgomery County.

**Although Takoma Park lies in Montgomery and Pr. George's Counties, for purposes of this report, we have shown the data for the entire city in Montgomery County.

***Because the Pr. George's County Police Department is unable to furnish the Maryland Uniform Crime Reporting Program with a breakdown of crime for the municipalities in their jurisdiction, we are not able to provide crime index information for the cities in Pr. George's County.

MARYLAND
ARREST DATA

ARREST DATA

The Maryland Uniform Crime Reporting Program requires the submission of monthly reports of data concerning persons arrested in the state. A record of total arrest activity for criminal acts in both Part I and Part II crime classes is received from 136 county, state and municipal law enforcement agencies, according to the age, sex and race of persons arrested. Traffic arrests, except Driving While Intoxicated, are not reported. A total of 200,379 arrests for Part I and Part II criminal offenses were reported during 1981. In comparison to 1980, there were 185,252 arrests which results in an 8.2 percent increase. Based on 1981 population estimates, there were 4,702.6 arrests per 100,000 population in Maryland. The arrest rate for 1980 was 4,419.2, resulting in a 6.4 percent increase in arrest rate.

A person is counted on the monthly arrest report each time he is arrested. It should be noted that a person may be arrested several times during a given month for the same or different offenses. This occurs frequently in a crime such as Disorderly Conduct. A juvenile is counted as "arrested" when the circumstances are such that if he or she were an adult an arrest would be counted, or when police or other official action beyond a mere interview, warning or admonishment is taken.

Arrest figures do not indicate the number of individuals arrested or summonsed since, as has been pointed out, one person may be arrested several times during the month. However, arrest information is useful in measuring the extent of law enforcement activities in a given geographic area, as well as providing an index for measuring the involvement in criminal acts, by the age, sex and race of perpetrators.

30 percent of all reported arrests during 1981 were for Part I Offenses (Murder, Manslaughter, Forcible Rape, Robbery, Aggravated Assault, Breaking or Entering, Larceny-Theft, and Motor Vehicle Theft). Analysis of Part I arrest data indicates that Larceny comprised the highest percentage of all arrests for Part I crimes, with 50 percent of the total. The same trend for Larceny occurred in 1980 with 50 percent of the total. The Drug Abuse, Driving under the Influence, Disorderly Conduct, and All Other Offense categories continue to record the highest percentage of arrests for Part II Offenses. These offenses accounted for 67 percent of the total Part II Offenses in 1981.

VIOLENT CRIME

Arrests for crimes of violence (Murder, Forcible Rape, Robbery, and Aggravated Assault) on a statewide basis amounted to

21 percent of arrests for Part I Offenses and 6 percent of the total arrests in 1981, as compared to 20 percent of arrests for the Part I Offenses and 6 percent of total arrests in 1980. A further evaluation indicates that arrests for Robbery and Aggravated Assault were the most frequent, representing 44 and 45 percent respectively of the total arrests for Violent Crimes.

Property Crime

Property Crime arrests (Breaking or Entering, Larceny-Theft and Motor Vehicle Theft) comprised 79 percent of all arrests for Part I Offenses and 24 percent of the total arrests in 1981, as compared to 80 percent of all arrests for Part I Offenses and 26 percent of the total arrests in 1980.

The highest percentage of Property Crime arrests, 64 percent, occurred in the Larceny category, the same as in 1980, with 63 percent of the total.

Drug Abuse Violation Arrests

Information pertaining to Drug Abuse Violation arrests is collected according to specific drug categories and whether the arrest was for Sale or Manufacture or Possession of the specific drug. During 1981, a total of 15,756 arrests for Drug Abuse Law Violations was reported, as compared to 1980 with 14,162 arrests, resulting in an 11.3 percent increase.

Evaluation of data reported discloses that 44 percent of all persons arrested for Drug Abuse Violations were under 21 years of age. 50 percent of all persons arrested for Drug Abuse Violations were under 21 in 1980. 23 percent of the Drug Abuse Violation arrests were for persons under the age of 18 as compared to 27 percent in 1980.

Analysis of individual categories showed that the highest percentage of arrests, 73 percent, involved marijuana, as compared to 76 percent in 1980. 77 percent of the total Drug Abuse Arrests were for Possession while 23 percent were for Sale or Manufacture. In 1980, 80 percent were for Possession while 20 percent were for Sale or Manufacture. Possession of Marijuana represented 61 percent of the total Drug Abuse arrests, as compared to 1980 with 65 percent of the total.

Gambling Arrests

A total of 620 Gambling arrests were reported during 1981. In 1980, 720 persons were arrested for Gambling violations, resulting in a 14 percent decrease.

Arrests for Gambling offenses amounted to .3 percent of all reported Part I and Part II arrests, compared to .4 percent in 1980. Persons under the age of 18 made up 15 percent of all Gambling arrests compared to 11 percent in 1980.

TABLES FOR ARRESTS BY REGION, COUNTY, AND

AGENCY ARE CONTAINED IN THE SUPPLEMENT REPORT

"MARYLAND ARREST DATA"

LAW ENFORCEMENT EMPLOYEE DATA

LAW ENFORCEMENT OFFICERS KILLED

Two law enforcement officers were killed in Maryland during 1981. The following summaries are based on information provided by the Federal Bureau of Investigation who conducts in-depth investigations into these tragic incidents in which law enforcement officers have made the supreme sacrifice in the performance of their duties.

MARCH 27, 1981

A 9-year veteran officer with the Montgomery County Department of Police was shot and killed at approximately 7:00 A.M. on March 27 after responding to a burglar alarm at a department store in Silver Spring. Upon his arrival at the store, the 33-year-old officer was joined by the assistant store manager and an alarm company security officer. The three entered the store and proceeded to a locked office containing two safes. After entering the room, the victim was shot at close range by a suspect utilizing a .38-caliber handgun. A second suspect then appeared and shot the security officer twice in the chest, killing him. After the assistant manager, also severely wounded, was forced to open the two safes, the victim officer was then struck several times about the head and shot a second time. He suffered gunshot wounds to the back of the head and the left shoulder. The burglary suspects fled the shooting scene with approximately $7,000 in cash and the victim's service weapon. Following an extensive investigation, five males--two aged 29 and the others aged 25, 23 and 22--were arrested and charged with the murders.

JULY 20, 1981

At approximately 11:45 P.M. on July 20, a Baltimore Police Department officer, 28 years of age, was handling a traffic accident in a downtown area when he was attacked and killed. A 21-year-old male allegedly came out of the crowd that had gathered at the accident site, grabbed the officer from behind, and threw him to the ground. Reportedly, he then took the victim's .38-caliber service weapon and at point-blank range shot the officer in the head and abdomen. During the attack, no one emerged from the crowd to assist the officer. The suspect was arrested about 5 hours later and charged with murder. The victim officer had over 7 years of law enforcement experience.

LAW ENFORCEMENT OFFICERS ASSAULTED

The following information is based on a detailed monthly collection of data in the Uniform Crime Reporting System regarding the problem of assaults on local, county and state law enforcement officers. The large number of reported assaults on sworn officers is in part due to a prevalent attitude of disrespect for law enforcement in certain elements of our society.

A total of 3,513 law enforcement officers in Maryland were victims of assault in the line of duty during 1981, as compared to 3,452 assaults during 1980, resulting in a 1.8 percent increase.

The rate of assaults on law enforcement officers for the state was 32 assaults for every 100 sworn officers, as compared to 31 assaults per 100 sworn officers in 1980.

Physical force was used in 86.3 percent of all assaults on police officers.

The greatest number of assaults (1,311) or 37.3 percent occurred while officers were responding to disturbance calls (family disputes, man with a gun, etc.). 33 percent of assaults on police officers occurred between 10:00 P.M. and 2:00 A.M.

A total of 3,460 assaults on law enforcement officers were cleared during 1981, amounting to a 98.5 percent clearance rate, the same as in 1980.

LAW ENFORCEMENT EMPLOYEE DATA

Police Employee Data

The Uniform Crime Reporting Program in Maryland incorporates the collection of pertinent data relating to the police of the State. Information regarding police employee strength is discussed in this section.

This information is submitted by county, municipal, and state law enforcement agencies and compiled on an annual basis. Specific information concerning the number of law enforcement employees reflects the status as of October 31, 1981.

Law Enforcement Employee Rates

In 1981, the average number of full-time law enforcement employees (county, municipal and state) including civilian employees, amounted to 3.2 for each 1,000 inhabitants of the State. The rate based on sworn personnel only (excluding civilians), amounted to 2.6 per 1,000 population. In 1980, the average number of full-time law enforcement employees amounted to 3.3 for each 1,000 inhabitants and 2.7 sworn personnel per 1,000 inhabitants of the State. There was a 3 percent decrease in the average number of law enforcement employees and a 4 percent decrease in the average number of sworn personnel.

The ratio of law enforcement employees per 1,000 population in any given area or municipality is influenced by a number of factors, much the same as the crime rate. The determination of law enforcement strength for a given county or municipality is based on factors such as population density, size and character of the community, geographic location, proximity to metropolitan areas, and other conditions which exist in the area generating the need for law enforcement services. Employee rates also differ among agencies since, in particular, there is a wide variation in the responsibilities and level of activity within various law enforcement agencies. The information in this section relates to reported police employee strength and should not be interpreted as recommended strength for any area.

Civilian Employees

The personnel of each law enforcement agency differ as to the demands and responsibilities placed before them. Many police officers are fully occupied with clerical tasks and are not free to perform active police duties. Some police administrators use civilians in this capacity, thus freeing the sworn personnel for actual police related services.

As of October 31, 1981, 2,702 or 20 percent of the total number of police employees in Maryland were civilians, as compared to 2,717 or 19 percent in 1980.

MUNICIPALITIES

As of October 31, 1981, municipal police departments reported a total of 4,947 employees. This represents a rate of 4.0 police employees per 1,000 population and a rate of 3.3 sworn personnel per 1,000 population, as compared to 4.1 police employees per 1,000 population in 1980, and a 3.5 sworn personnel rate per 1,000 population. There were 4,157 sworn officers and 790 civilian employees in 1981, as compared to 4,282 sworn officers and 786 civilians in 1980. The sworn personnel represents 84 percent of the total employees and the civilians 16 percent, the same percentage as in 1980.

COUNTIES

This category includes data from County Police Departments, Sheriff's Departments and State Police. Combined, they reported as of October 31, 1981, a total of 7,427 police employees. This amounts to a ratio of 2.5 police employees per 1,000 population and a ratio of 1.9 sworn personnel per 1,000 population, as compared to 2.5 police employees per 1,000 population and 2.0 sworn personnel per 1,000 population for 1980. There were 5,799 sworn personnel and 1,628 civilian personnel. The sworn personnel represent 78 percent of the total, and the civilians 22 percent, the same as in 1980.

The Parks, Tolls, College and University Police accounted for 1,411 sworn and civilian police employees. This represents 10 percent of the total police employees. These figures are not included in the above statistics of municipal and county categories.

Any attempt to break down the categories above (County Police Departments, Sheriff's Departments and State Police) on a statewide basis would be misleading as they have overlapping and concurrent jurisdiction in many areas. Therefore, these categories have been combined in order to represent the best possible ratios of police employees to the current population.
